MEMORANDUM FOR: Assistant Director for Mapping, Charting & Geodesy
Defense Intelligence Agency

SUBJECT: Comment on the Initial Agenda

REFERENCE: C-4026/MC-4, Subject: (U) 1964
Annual Geodetic, Cartographic and ATM Conference

1. Acknowledgement is made, with appreciation, of the receipt of the initial agenda for the reference conference.

2. The comprehensive range of timely geodetic topics relevant to U. S. weapons and space systems requirements, operations, and research findings, covers all major aspects that are of interest to CIA personnel working in these fields. Information on such U. S. activities is of great value in maintaining currency on the state of the art for CIA personnel engaged in intelligence research on these topics. We would be pleased to be able to send several analysts to attend the Symposium in October.
